

Dear Long Memorial Elementary Families,

We know you want the best for your child's health, education, and well-being. That's why Saddlebrook School District has teamed up with Champions to provide before- and after-school programs for students in our school district. Champions has more than 28 years of experience providing high-quality programs that balance education and fun in a safe environment. Champions' AdvancED accredited program will be conveniently located at Long Memorial Elementary.

**What sets Champions apart?**

Learning shouldn't stop when the school bell rings — and the Champions program makes sure it doesn't. Guided by passionate teachers, children explore their curiosity through activities in creative arts, math and construction, library time, puzzles and games, science, and STEM! Their new STEM component will spark interest in even the youngest of students as they learn about coding, robotics, and more. Time is set aside for homework help giving your family more time to spend together at night. Healthy snacks are also provided for your children.
